PROFESSIONAL SUMMARY

Hi, I'm Elijah (Illia in Slavic), a software engineer with twelve years of experience and the author of **slivce.net**.

My background spans a wide range of technologies, including Elixir, JavaScript, TypeScript, Go, C, C++, Java, Clojure, and Python. I started in systems engineering and later moved into web development, with a strong focus on architecting and developing systems using Go and Elixir. As a free software and Nix system user, I contribute to open source whenever possible.

I've worked at large companies like Cisco and Dentsply Sirona, and helped small to medium-sized startups grow.
